

ECH Patient Administration

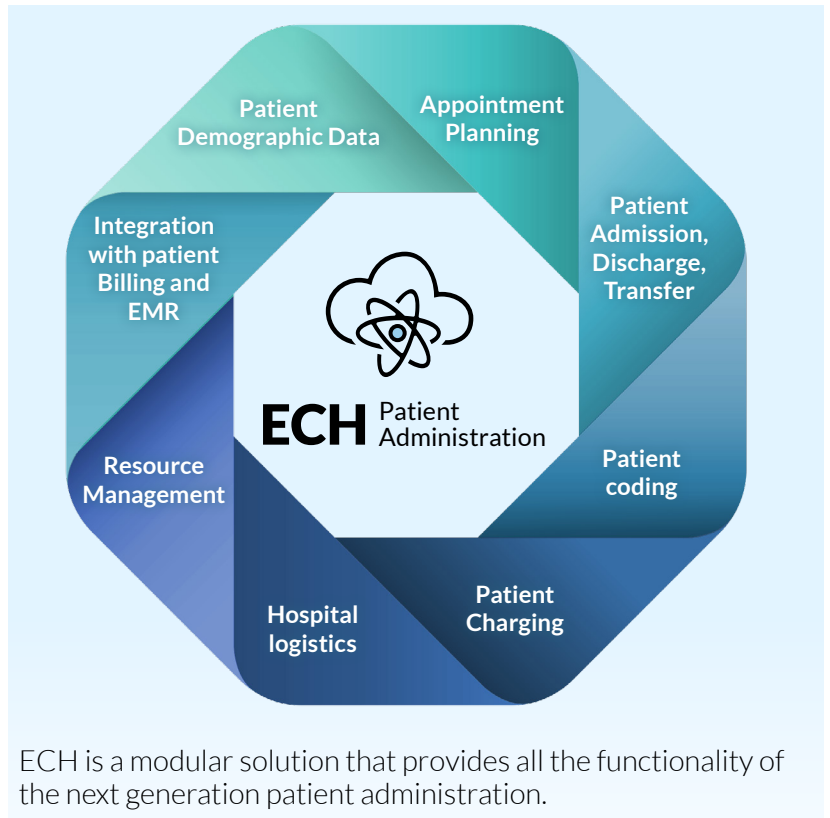

ECH Patient Administration offers patient-centric solutions designed specifically to meet the challenges of hospitals and healthcare providers. **The ECH solution support collaborative activities enabling administrative and clinical staff to share information and work cooperatively with patients, payers, suppliers, other healthcare providers and public authorities.**

Manage patient journey

Our solutions are easy to learn, simple to use, and sophisticated to help you meet today's complex challenges in managing patient journey. ECH deliver a seamless experience for your patients, enabling easier patient scheduling, smooth check-ins, and convenient payments.

The solution provides the simplified registration and maintenance of patient demographic and visit information, aiding patient identification and issue coordination; streamlined coordination of communication and processes inside provider organization as well as with other healthcare providers or with patients.

ECH is a modular solution that provides all the functionality of the next generation patient administration.

The Patient Administration solution provides the administrative processes for registering and maintaining information about patients within the care process. The solution enables every aspect of the episode of care to be recorded.

EASY SCHEDULING

Flexible scheduling tools centralize staff calendars for multiple locations and configure to meet the needs of individual physicians and hospital operations.

ECH provides planning and scheduling of appointments according to medical and business priorities.

ECH help providers to accurately track resources and costs; further enabling hospitals to identify opportunities to refine processes for enhanced management efficiency.

EFFICIENT CODING AND CHARGING

ECH provides capabilities to timely and accurately capture the information about the patient's stay. Along with the clinical solution integration, the solution offers the functionality to ensure that the users successfully and efficiently treat the patient.

Appropriate documentation ensures patient billing in the shortest possible time by enabling staff to collect all clinical and administrative data necessary to do a complete and valid billing.

CUSTOMISABLE FUNCTIONALITY FOR COMPLEX REVENUE CYCLE MANAGEMENT

Mistakes in the invoices can hinder the payment from the Insurance Providers and force a laborious and expensive review of the charges, involving staff and other resources in this process.

Integrated with the Billing Engine you can customise the revenue cycle management for private or public Insurance Providers and self-payer considering complex rules and treatment context of the episode of care. Different logic such as package logic or complexity logic are available and you can adapt them to your special requirements by customising.
